VueJS Developer (Mid Level)

Mavorion Systems Pvt. Ltd. is seeking a few energetic and talented individuals for the position of Mid-Level VueJS Developers at its Kathmandu office to add to the teams working on several interesting and challenging projects.

Responsibilities
As a VueJS developer, you will be working closely with other developers and team members in a collaborative environment. You will need to demonstrate that you are willing to keep up-to-date with latest technologies relevant to the projects and best practices in software development. Some of the requirements:

- Leverage the inbuilt VueJS toolkit for creating front-end features.
- Create data visualization tools, libraries, and reusable code for prospects.
- Integrate designs and wire-frames within the application code.
- Translate wire-frames and designs into good quality code.
- Optimize components to work seamlessly across different browsers and devices.
- Design and develop innovative web applications with good UI/UX
- Write reusable, effective, and scalable JavaScript code
- Build modular and reusable components and libraries
- Monitor interaction of users and convert them into insightful information.
- Implement front-end components with progressive VueJS framework.
- Translate the client's technical specifications into code.
- Test, update and optimize the application for performance and security.

Requirements

- Minimum 1.5 Years experience of working as a VueJS Developer.
- Strong proficiency in JavaScript, object model, DOM manipulation and event handlers, data structures, algorithms, JSX, and Babel.
- Complete understanding of VueJs and its main fundamentals like JSX, Virtual DOM, component lifecycle, etc.
- Preceding experience with VueJS workflows like Vuex, Create Vue App, data structure libraries.
- Understanding of RESTful APIs/Graph-QL, HTML/CSS, ES6 (variables and scoping, array methods), code versioning tools like GIT, SVN, etc., popular frontend development tools, CI/CD tools, DevOps, performance testing frameworks like Mocha, Node + NPM
- Thorough understanding of modern JavaScript (ES6/ES7)
- Bachelor's Degree or Higher in Computer Science, Information Technology or similar faculty.
